

Part of Stand design, RHS Chelsea Flower Show Winner

The scenario: The Garden Trellis company offer bespoke products that can be seen as an investment in the look of your garden that will be appreciated time and time again.

The solution: Durability, stability of the timber is particularly important. Medite Tricoya can offer the design freedom along with the stability and durability properties that can exceed the very best hardwoods. The manufacture process only allows the company to work to very small tolerances and with Medite Tricoya this can be achieved.

The result: Medite Tricoya has allowed the design team to express their skills by offering garden sculptures made from MDF, Not normal MDF but Medite Tricoya a Durable MDF. A machined MDF sculpture was an intrigue part of the stand design at this years RHS, Chelsea Flower Show.

“ We enjoy the challenge of creating a structure in the garden. Using Medite Tricoya has allowed us to machine a wood based product and create this eye-catching sculpture that we featured on our stand at this years RHS, Chelsea Flower Show. Just like normal MDF this was easy to machine and we are pleased we now have an MDF product that can be used outside. ”
